Preferred Lies

Fairway:

Place on the fairway within one club length, no nearer the hole.

Rough:

A ball plugged in the rough, can be lifted and dropped in the rough within one club length, no nearer the hole.

Ball in bunker:

Players are allowed to lift the ball, smooth the sand and replace the ball in its original position, without penalty. If there is water in the bunker, then drop at the nearest point of relief within the bunker, even if it is nearer the hole. If the bunker is full of water and there is no place to take relief within the bunker, then the ball should be dropped within one club length outside the bunker at a point on a line from the flag to the original ball position, with no penalty.

For all other areas of the course, the normal rules of golf apply.

A ball cannot be lost on the fairway. When a player's marker confirms that a ball landed on the fairway, and it cannot be found, the player may drop a second ball without penalty at a place where he and his marker believe the original ball to have landed.

When a ball is known to be or virtually certain to be lost or out of bounds, players will have the option, to play a second ball under the R&A "alternative ball" rule, which carries a TWO shot penalty but which allows the player to play his next shot from the fairway. Players must agree with their marker the point where the ball is believed to be lost. Then find the nearest fairway edge, not nearer the hole. The ball may be dropped within two club lengths of this point, again not nearer the hole. You CANNOT use this rule if a provisional ball has been played. However, if your provisional ball is also lost or out of bounds, you may use this Local Rule with respect to your provisional ball.

At the start of the Winter League, member's handicaps will be their Handicap Index at the end of the Summer season. Playing handicaps will be published each week and Handicaps will be manually adjusted during the winter. Handicaps will be reduced based on the number of points awarded in the competition e.g., if you gained 6 points then your handicap will be reduced by 6 times your handicap category reduction.

Competition standard scratch (CSS) score will be one stroke more (Medal) or one point less (Stableford) than the score achieving 1 point in the competition. Player's scores outside the CSS, + or – handicap buffer zone will have their handicaps increased by 0.1. There will be NO Rule 19 reductions applied during the winter league
